

Ordering repeat prescriptions?  
Download our app **FREE** today.

**'My Local Pharmacy' app is available for Android and Apple mobile devices**

Search for 'My Local Pharmacy'.

Scan the QR code to download the app.

## Apps to make life easier

Mobile applications or apps are self-contained programs designed to perform a particular function in a simple, more user friendly way. You can get an app for almost anything these days from calorie counters to exercise programmes, cookery classes to on-demand TV and everything in between.

Many apps are designed to simply 'make life easier' and our repeat prescription app is no exception.

## Does this sound familiar?

You're about to run out of medication and you've been meaning to call the pharmacy / surgery to place your order for your repeat prescription.

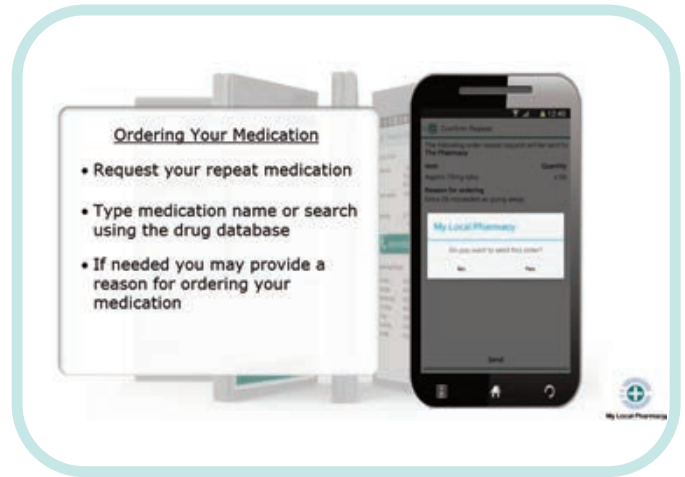

You're panicking since you've forgotten several times already but have been busy with work and family commitments.

You're sitting having your tea and suddenly remember that for the third time that week you didn't get chance to make that all important phone call, promising yourself you'll do it tomorrow.

How close have you been to running out of your medication? Too close for comfort? And what would the consequence be if you didn't take your medicines when intended?

With this app you don't need to worry about making that call during pharmacy or surgery opening hours. You can place your order 24 hours a day, seven days a week. What's more, this app will remind you when to take your medication to help you avoid missed doses.

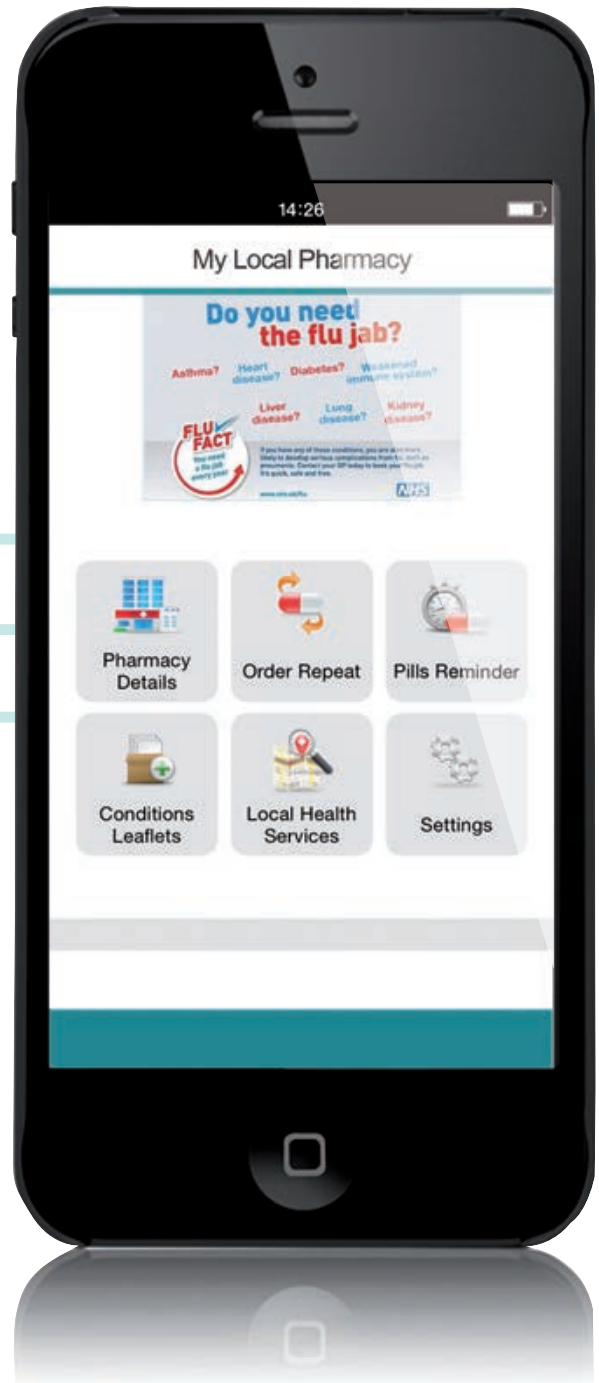

## Sound good? It gets even better.

Our new app also provides a range of information including:

**How to locate your nearest healthcare providers such as hospitals, dentists, GP surgeries and opticians.**

**Advice, information and support on a wide range of health conditions.**

**Our very latest promotions and services, helping you get the best from your local community pharmacy.**

## Your information is safe with us

Only members of the pharmacy team who handle prescriptions will have access to your repeat prescription requests. The training that pharmacists undertake ensures that we understand the importance of maintaining patient confidentiality.

We understand that your information is private and confidential and we will ensure that the protection afforded to you under the Data Protection Act remains in place and is not compromised.

## Our app is free to download, is secure and will no doubt help you manage your medicines.

Go to the '**App Store**' and search My Local Pharmacy to download free of charge.

Go to the '**Google Play**' store and search My Local Pharmacy to download free of charge.

**YOUR PHARMACY ID CODE:** NUM0045

Pharmacy Address

Staveley Pharmacy  
6 Main Street  
Staveley  
Kendal  
Cumbria  
LA8 9LU  
01539 821 222

Once you have downloaded the app you will be prompted to enter a pharmacy ID code which links your mobile device to our pharmacy so that your repeat prescription requests come to us.

If you have any problems downloading our app, speak to a member of the pharmacy team who will be able to help.
